PROFESSIONAL SUMMARY

Result-driven Frontend Developer with 3+ years of experience building high-performance web applications using React.js, Redux, and AWS serverless technologies. Proficient in writing clean, scalable code, implementing CI/CD pipelines, and delivering user-friendly interfaces. Strong collaborator who has delivered production-ready platforms for startups and nonprofits.

KEY HIGHLIGHTS

- 3+ years in modern frontend development using React, Redux, and Tailwind.
- Built scalable apps integrated with AWS (Lambda, API Gateway, Amplify).
- Delivered 5+ end-to-end projects across e-commerce, HR, and EdTech domains.
- Strong in testing (Cypress), API integration, and Agile methodologies.

TECH STACK SNAPSHOT

React.js • Redux Toolkit • Tailwind CSS • Typescript • Cypress • AWS Amplify • Lambda • API Gateway • REST APIs • Graph QL • React Query • Git • CI/CD

EDUCATION

Bachelor of Computer Applications (BCA) 2020 − 2023
Vikram University

SKILLS

Programming	JavaScript, HTML5, CSS, C
Frameworks/Libraries	React JS, Redux, Redux Toolkit, React Hooks, React Router DOM
Cloud Technologies	AWS Amplify, AWS Lambda, AWS API Gateway, AWS EventBridge
UI Libraries	Bootstrap, Material-UI (MUI), AdminLTE, Tailwind
State Management	Redux, Context API
API	RESTful APIs, Axios, React Query, RTK Query
Tools	Visual Studio Code, Git, GitHub, Postman, JIRA
Testing	Cypress (End-to-End Testing)
Methodologies	Agile Development, Waterfall Development

EXPERIENCE

React Developer Feb 2024 − Mar 2025
Declone Labs PVT LTD, Surat, Gujarat *On-site*

- Developed and deployed 2+ scalable web applications, reducing load times by 35
- Automated UI test flows using Cypress, catching 70% of pre-release bugs.
- Collaborated with a team of 5 developers to design micro-frontends, accelerating feature rollout by 40%.

Jr React Developer
Baelworks, Madhya Pradesh

May 2022 – Feb 2024

On-site

- Built and maintained multiple UI components using React, Context API, and Tailwind.

- Implemented API integration using Axios, React Query, and RTK Query for efficient state and data management.

- Participated in CI/CD pipeline setup and testing using Cypress, improving release cycles and code quality.

PROJECTS

CyberStash – SOAR Module (Eclipse.XDR Platform) Developed automation workflows in React.js for Security Orchestration, Automation, and Response (SOAR). Integrated security tools to reduce manual incident handling and improve response times.
Tech Stack: React.js, Redux, React Hooks, Material UI, Indexed-db
cyberstash.com

Empowered Hub — Non-Profit Educational Platform Built an interactive platform providing educational resources and learning tools for underprivileged students. Helped scale outreach to 1000+ students.
Tech Stack: React.js, Redux-toolkit, Tailwind, Typescript, AWS (Amplify, S3, Eventbridge)
empoweredhub.org

Singaji Central — Student Lifecycle Management System Designed and developed a central dashboard to manage student attendance, exam results, and academic progress across institutions.
Tech Stack: React.js, Redux, Bootstrap, AWS (S3), React-table
central.ssism.org

Bharosa (Admin Panel) — Agritech E-commerce System Developed product inventory and vendor management module for a growing agritech platform.
Tech Stack: React.js, Admin-LTE, DND

HR Management System — Parivaar Organization Created a secure employee management dashboard including leaves, roles, and payroll modules.
Tech Stack: React.js, Axios, MUI, React-Table

Ad-Sprint — Ad Operations Dashboard for News Agencies Engineered a Redux-heavy frontend for creating, managing, and tracking news advertisements.
Tech Stack: React.js, Redux, Redux Thunk, Material-UI, MUI-Datagrid

CERTIFICATIONS

React JS — HackerRank Certified
SQL Certificate — HackerRank Certified
SI Associate Certification Program — MongoDB Certified
